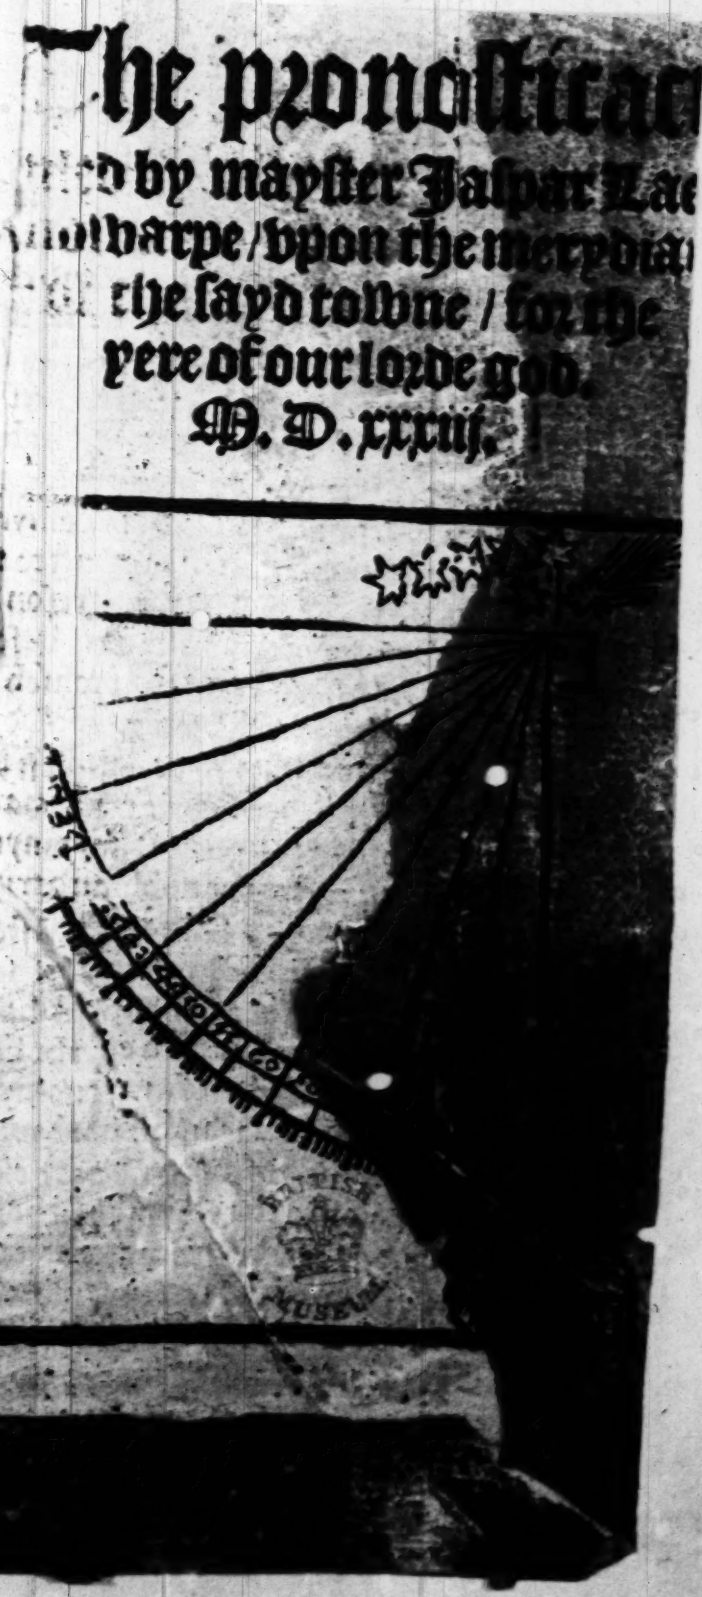
Pronostica-tiõ of the yere of our Lorde M.v^c.xlj.

Practysed by the renowmed doctor in Astronomy and Physicke Jasper Laet.



Pronostication of J.
Laet doctor of Phisicke and Astro
for the yere of our Lorde Go
M.v^c.xlij.

FORASMUCHE as I perceau
uerse & sondery perlõs do gre
the most noble science of Astro
posynge the same to be fals a
and that because al accidentes
do not so befall, whiche are by
nomers (that notwythstandyn
pert men in the science) pronosticated: the w
mynge hath dyuerse tymes nearhand withhol
wrytynge yearely Pronostication. By two re
uertheiesse ame I renoked to pronosticate.

The fyrste reason is bycause, of the truthe
che naturallye we are bounde to defende and
teyn, of the whiche truthe, concernynge Ast
haue diuers tymes had experience in our fo
sications: but most expressly in the yeare of
in the whiche I dyd pronosticate thyough
Astronomy taken out of Ptolome, and bor
and stronge reasons of the same science o
fyrst that the agreement or accorde mad
kynge of Fraunce and the Duke of Clev
mayne fast nor durable. Secondly the
